Agenda, Notes Thanks to SISC & Mike Jones

Notes: Derek

Agenda: a Digest / TAG issues & how cases, NIPv6.

15th / Eric Yen / IAPG and PIA: lots of attendance from AP very useful.
next meeting just before HEP IX

13th / Derek Simmel / TAG PIA:

global discussion → (global support may actually continue ...)

Jim B's thoughts on this may be changing :)

new member introductions are down → less F2F meetings.

IQTF → white paper on 'new world' → we need marketing

(IAPG) - blog or news item on relation REFEDS, IQTF, GERAP, InCommon & e

- as an ADRC paper. (entity relationship diagram).

+ 1-pager on policy.

→ add 'RB's that are RB's that set requirements: attract more SP's / RI's.

14th / Dave K. FIM4R: (see slides) extending to America's. (ABOUT REQUIREMENTS!)

two main outputs: - v2 of the white paper. good things & things that changed.

- Questionnaire.

move to RDA to broaden scope → set up parallel FIM-2g

RDA seems slightly biased towards EU + America. Enjoy AP Lyon.

PEPDC → horizontal vs applications. not just XSEDE
